Job Purpose

The Horticulture Supervisor oversees the daily maintenance of the Park Districts landscape beds and natural areas. Landscape operations include: performing maintenance such as weeding, mulching, planting, pruning, watering, and fall and spring cleanup. The Horticulture Supervisor assists in the design, organization, and scheduling of landscape area plantings to create healthy habitats. Additionally, operations include: hiring, training, scheduling, and leading the horticulture team in proper horticulture maintenance practices.

The Park District of Oak Park is an equal opportunity employer!
